EGR 101 : ENGINEERING FOUNDATIONS

This course introduces the student to engineering as a profession, basic engineering skills and the design process. This course includes components to develop team and oral and written communication skills. It also provides an introduction to computer tools used by engineers (spreadsheet, word processing, presentation software, internet access).
Credits 3
Lecture Hours 2
Lab Hours 2
Corequisites
MTH 113 or MTH 115.
