

Books, Supplies, and Tools

Students furnish their own books, supplies, and tools. For the convenience of the student, books, supplies, and tools may be purchased through the online bookstore. Bookstore purchases can be charged to financial aid beginning 10 days prior to the first day of class each semester. Each career technical education program will supply a tool list to help the student in the purchase of the necessary tools. Selected texts and/or workbooks are identified for each course of study.

NOTE: The Exchange/Refund Policy may be obtained from bookstore personnel.
