

ACR 210 : TROUBLESHOOTING HVAC/R SYSTEMS

Class Program

Air Conditioning & Refrigeration Technology (ACR)

Credits

3

Lecture Hours

1

Lab Hours

4

This course provides instruction in the use of various meters and gauges used in the HVAC/R industry. Emphasis is placed on general service procedures, system diagnosis, corrective measure, methods of leak detection, system evacuation, charging, and performance checks. Upon completion, students should be able to perform basic troubleshooting of HVAC/R systems.
