

# ADM 101 : PRECISION MEASUREMENT

## **Class Program**

Advanced Manufacturing Technology (ADM)

## **Credits**

3

## **Lecture Hours**

2

## **Lab Hours**

2

This course covers the use of precision measurement instruments utilized in inspection. In addition, basic blueprint reading techniques, reverse engineering, and related industry standards required in advanced manufacturing disciplines are covered. Upon completion, students should be able to demonstrate correct use of precision measuring instruments, interpret basic prints, and apply reverse engineering techniques.

## **Prerequisites**

DDT 104 OR DDT 111
