

# ADM 293: MSSC MANUFACTURING PROCESSES AND PRODUCTION COURSE

This course is designed to provide students with knowledge and skills related to manufacturing processes and production in a manufacturing environment. Topics covered include

- Identify customer needs
- Determine resources available for the production process
- Set up equipment for the production process
- Set team production goals
- Make job assignments
- Coordinate work flow with team members and other work groups
- Communicate production and material requirements and product specifications
- Perform and monitor the process to make the product
- Document product and process compliance with customer requirements
- Prepare final product for shipping or distribution

This course is equivalent to AUT 144 and WKO 133.

Students completing this course will receive an MSSC certificate in manufacturing processes and production. Students completing courses ADM 291, 292, 293 and 294 will receive the Certified Production Technician credential.
